Sisters in Cinema is a seminal work that pays homage to African American women, who against all odds made history. The careers, lives and films of inspirational women filmmakers, such as, Euzhan Palcy, Julie Dash, Darnell Martin, Dianne Houston, Neema Barnette, Cheryl Dunye, Kasi Lemmons and Maya Angelou are showcased within the film. Interviews are interwoven with film clips, rare archival footage and photographs and production video of the filmmakers at work. Together these images give voice to African American women directors and serve to illuminate a history that has remained hidden for too long.

Sisters in Cinema reveals the challenges of African American women in the directors chair and the trials and jublations of bringing their life's passion to the screen.
